

PharmD / MBA Dual Degree Program

V i r g i n i a C o m m o n w e a l t h U n i v e r s i t y

The VCU School of Pharmacy and School of Business are proud to offer a dual degree program that allows students in the PharmD program to apply and simultaneously enroll in the MBA degree. The PharmD / MBA program is designed to prepare pharmacists for careers that require expertise in both pharmacy and business theories and principles. The program is designed to take advantage of efficiencies in both the PharmD and MBA programs. With careful planning, students enrolled in the dual degree program may complete requirements of both degree programs in five years.

Curriculum Requirements

To earn both degrees, students will complete the following requirements:

Pharm.D. Program Requirements

All required Pharm.D. pre-requisite and required courses must be taken unless waived by the appropriate representative of the School of Pharmacy.

M.B.A. Program Requirements

A course in calculus is a prerequisite for the MBA. Applicants who have not met this prerequisite may take the course after admission.

Foundation Requirements for the MBA must be taken or be waived for each student:

ACCT 507 Fundamentals of Accounting
ECON 500 Concepts in Economics
FIRE 520 Financial Concepts of Management
MGMT 524 Statistical Elements of Quantitative Management
MGMT 540 Management Theory and Practice
MGMT 530 Fundamentals of the Legal Environment of Business
MKTG 570 Concepts and Issues in Marketing

Courses may be waived for students who have taken the equivalent material at the undergraduate level within the past five years. A grade of "B" or better is required for foundation courses to be waived.

MBA Advanced Program Courses

Nine core courses of the MBA are required of every student.

Cohort Semester I: (to be taken at same time)

ECON 610 Managerial Economics
MGMT 641 Organization Leadership and Project Team Management

Cohort Semester II:

FIRE 623 Financial Management

Remaining Advanced Program Courses:

ACCT 608 Managerial Accounting
INFO 661 Information Systems for Managers
INFO 664 Information Systems for Business Intelligence
MGMT 675 Operations Management
MKTG 671 Marketing Management
MGMT 642 Business Policy (to be taken at the end of the core courses)

Three MBA Elective Courses may be taken in the School of Business or by completing approved PharmD electives and/or up to three credit hours in an applied pharmacy practice experience in pharmacy management, as individually approved by the School of Pharmacy and School of Business.

The key to successful completion of the PharmD/MBA dual degree program will be timely and continuing advising from both the appropriate School of Pharmacy advisor and the Director of Graduate Programs in the School of Business. For this reason, students are encouraged to seek admission to the dual degree program as early in their PharmD program as possible.

Admission Requirements

Students interested in pursuing the PharmD/MBA dual degree program must first obtain admission from the PharmD program. Admitted PharmD students who desire to add the MBA degree to their program must apply to the MBA program using the *Application for Graduate Study* found at the School of Graduate Studies web site: www.vcu.edu/graduate.

A complete application to the MBA program includes:

- Application for Graduate Study and Application Fee
- Request for In-state Tuition Rates (as applicable)
- Three letters of reference, including a letter of support from the School of Pharmacy
- Official transcripts from all university's previously attended, including current VCU transcript

Tuition and Financial Aid Considerations

Upon admission to the MBA program, a PharmD student will be considered a dual degree-seeking student. Students will most often register for a mix of School of Business courses and School of Pharmacy courses each semester of the program. The School of Pharmacy and School of Business have agreed that dual degree seeking students will be considered PharmD students in years P1, P2, P3 and P5. Students will be considered MBA (graduate) students in year P4. When categorized PharmD, a student will be charged tuition and fees from the School of Pharmacy and will be eligible to receive financial aid awards as PharmD students. When categorized MBA (graduate,) a student will be charged the graduate tuition and fee rate of the academic campus and will be eligible to receive financial aid awards as a graduate student.
